

Pre/Post Exercise–Associated Pattern Pathways

KEGG Pathways

- 2-Oxocarboxylic acid metabolism
- alpha-Linolenic acid metabolism
- Arginine biosynthesis
- Glycosphingolipid biosynthesis – globo and isoglobo series
- Mismatch repair
- Phenylalanine metabolism
- Phenylalanine, tyrosine and tryptophan biosynthesis
- Primary bile acid biosynthesis
- Protein export
- Proximal tubule bicarbonate reclamation
- Selenocompound metabolism
- Terpenoid backbone biosynthesis
- Ubiquinone and other terpenoid–quinone biosynthesis

Pattern Pathway
